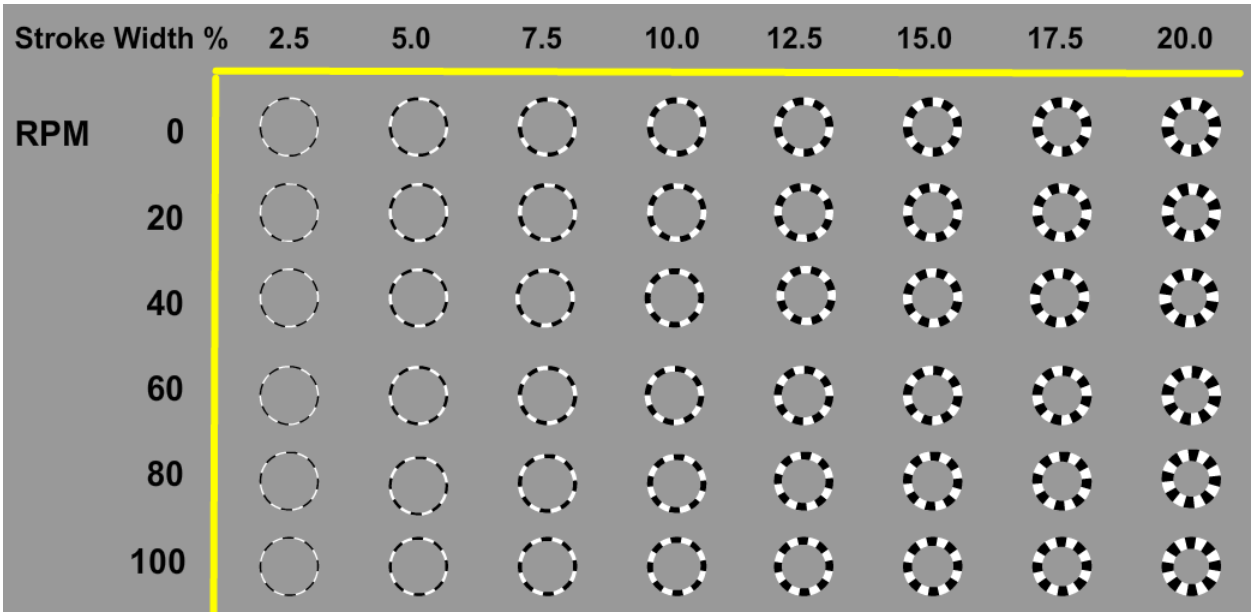
Dyop™ Color/Contrast Test Matrix

2014-01-30 format

Name: _____ Test date: _____



Enter the Dyop® arc width numbers in the appropriate boxes below.

These prototype tests are calibrated for use on a 15 inch diagonal monitor at a 20 foot viewing distance.
A Dyop® arc width of 7.6 arc minutes is equivalent to 20/20 or 6/6 vision,

At a 10 foot viewing distance, the rotation detection values are twice the actual 20 foot value.

Test viewing distance (mark ✔ your selection): _____ 20 feet _____ 10 feet.
Monitor diagonal size (mark ✔ your selection): _____ 15 inch _____ 22 inch
